

HADEEL ABDULKAREEM ALSHAYA

Riyadh, Saudi Arabia | [+966 56 2727 380](tel:+966562727380) | Hadeel.Alsahaya@hotmail.com | [linkedin](#) | [GitHub](#) | [Portfolio Hadeel Alshaya](#)

PROFESSIONAL SUMMARY

Recent Industrial Product Design graduate with hands-on experience in Computer-Aided Design (CAD), 3D Modeling, and Prototyping using Fusion 360 and AutoCAD. Completed a Product Design internship at KACST, contributing to concept development, ideation, and functional product design for research applications. Skilled in translating user needs into practical, manufacturable product solutions, demonstrated through independent projects spanning mechanical product design, packaging, and visual design. Seeking to apply CAD and design thinking skills in an Industrial Product Design or 3D Design role.

EXPERIENCE

Product Design Intern | King Abdulaziz City for Science and Technology (KACST) | Riyadh | Aug 2022 – May 2026

- Designed the mosquito oviposition trap for a Smart Mosquito Monitoring Unit, using dark, water-resistant materials and an angled egg-laying surface aligned with an integrated camera mount
- Designed the electronics enclosure, integrating an adjustable Iris mechanism to accommodate varying USB connector sizes while maintaining weatherproofing and cable organization
- Contributed to the sound sensor housing and mounting design, supporting continuous environmental, visual, and acoustic data collection in field conditions
- Produced technical drawings and part lists in Fusion 360 to support manufacturing and assembly

Graphic Designer (Part-time) | Darat Ramla Real Estate Company | Riyadh | Dec 2024 – Oct 2025

- Applied visual design principles using Adobe Creative Suite to support brand identity and marketing communication for real estate projects

SELECTED PROJECTS

Nawat — Graduation Project

Designed a smart device that processes damaged dates into biofuel and animal feed. Product design work spanned concept development, mechanical design thinking, and 3D modeling in Fusion 360 across the system's cleaning, kernel-separation, oil-extraction, and pulp-processing stages.

Kirmna Ghair — Product Redesign

Reimagined the traditional Carrom board game with a modern, innovative approach — preserving the game's core identity while introducing new form and functional details.

Gifting & Wood Product Designs

Additional product concepts for gifting and wooden products, demonstrating concept development, 3D modeling, material consideration, and product-focused visual presentation. Full body of work available in the portfolio.

DESIGN TOOLS & TECHNICAL SKILLS

CAD & 3D: Fusion 360, AutoCAD, 3D Modeling, Prototyping, Technical Drawing

Product Development: Concept Development, Ideation, Design Thinking, User-Centered Design, Material Consideration

Creative & Visual: Adobe Creative Suite, Packaging Design, Visual Communication

Software: Microsoft Office (Word, Excel, PowerPoint), GitHub

COURSES

- AI for Design and Optimization — Coursera, University of Michigan (2025)
- Graphic Design in the Age of AI — Nmkkn (2025)
- Entrepreneurship Development Program — Monsha'at (2025)

ACHIEVEMENTS

- Nominated Participant — Saudi Innovation Club for Furniture & Innovation (2025)
- First Place — North Riyadh Olympiad for Artistic Design (2020)
- First Place — School Talent Program Competition (2019)

LANGUAGES

Arabic (Native) | English (Professional Working Proficiency)
